

NYT 70 Why you need Jesus.

Jesus is ruler of all creation.

So, you need to obey Him.

If you obey Him as God, the following happens:

You are transferred from Satan's kingdom (hell) to God's Kingdom (heaven).

You become a member (by adoption of God) of God's family, having an intimate, personal relationship with each member of The Trinity.

Jesus becomes your step-brother and The Father becomes your spiritual father.

All that stopped you entering heaven and having eternal life is removed by Jesus at Calvary.

If you do God's work, He promises to provide all you need to do His work and prepare you for eternal life with Him in heaven.

He gives you all you need on earth and prepares all you will need in heaven for you after you die and go there.

He gives you the Holy Spirit to guide and help you live as you should.

All He asks is for you to live as He requires you to and to do the work He asks you to do!

God made you to be His friend and Jesus did all that was necessary to restore the relationship with God so made this possible.

But you must work at your side of the relationship which is what the Christian life is really all about.

How you live your Christian life will be an expression of the degree of love you have toward The Father and Jesus and also according to how well you relate to them also as well as how you listen to The Holy Spirit.

You need to be guided by The Holy Spirit to live as The Father requires you to, to build the intimate, personal relationship you have with Him and Jesus as well as to learn the attitudes on earth that you will need to have in heaven.
