

NYT 72 God created man for two reasons:

To be His friend

To look after the earth for Him-part of their service as a member of His family.

This was to be done by them, out of love and appreciation of what He had done for them as their Father Who gave them life and a beautiful world To live in, in which He had provided all they needed.

Jesus came to do all that was necessary to restore these two activities and to teach us how to live in this beautiful world.

Satan has hidden These Things by replacing them with his things.

Satan change the focus from being Gods friend and family and serving Him out of Love to belonging to the denomination and local church so that it became important and not interacting with other denominations, promoting themselves, and not realising they were not The Kingdom of God so instead of their being one Cohesive family of God, there are multiple denominations not cooperating or helping each to do God's work and His Kingdom is in shambles.

Satan removed the concept of a kingdom ruled by a king and replaced it with democracy and denominations where people decided what they should do and not God which is why we have so many unbiblical laws and activities these days

He hid the fact Christians are step-brother or step-sister to Jesus serving out of love and appreciation to the Father for what He has done for them replacing the love relationship we had with God with fear of going to hell and making Christianity become a religion of fear by being afraid to not live properly and go to hell and not one of a love relationship with The Father and Jesus guided by The Holy Spirit

He could not stop the reformation so guided it to be about knowledge and had The Holy Spirit's role be minimalised so that He did not play a real part in the lives of Christians as He was supposed to.

Satan placed the focus on 'saving' earth implying it was alive and had it called 'Gaia' and needing the earth to be depopulated to save it negating the command to be fruitful and multiply.

Satan replaced 'The Father' with 'Gaia':

Quite simply, the definition of Gaia is life. She is all, the very personification of the earth. She is the mother goddess, inhabiting the planet, and offering life and nourishment to all her children

So, we can see why we have the Green movement and climate change.

The role of Jesus corrupted in new Bibles implying He was not divine before He was born, that He sinned and was not able to redeem us and so not able to restore things to what they were in the Beginning

The first sin was bad stewardship of the garden and all in it. The second sin was a lack of faith in God that he had told them all they needed to know. It can be seen that at the beginning of time Satan attacked the two purposes God had made man for by removing mankind from the relationship they had with God and making mankind a bad steward of the earth that God had trusted them with.

So, Satan in the beginning attacked the two purposes God had made mankind for.

Satan prevented mankind from looking after the earth in the way God wanted it looked after and replaced this with his management of earth with all its slaughter of animals. In the beginning the earth was vegetarian but after the flood the earth could not support them with just vegetarian food so man was allowed to kill animals for food.

Satan also replaced the search for understanding of God with the science – the search for earthly knowledge. So, man no longer focussed on God but on science.

The Bible was not considered history so evolution replaced creation, miracles were considered folk lore and man rewrote it to promote his beliefs about God and the earth.

All the above has really only happened in the last few hundred years which shows how close we are to the end of the seventh day of this age.

In the Millennium we will know what it was like in the beginning and - Jesus will be its King and it will not be influenced by Satan as it is known because He has replaced God's purposes with his.

The eight days of creation

4004 BC Earth created – Adam the first man (day 1 and 2)

2004 BC Israel created – Abraham the first Jew – (Day 3 and 4)

4 BC Christ born

30-year gap Christ died 2030 - The first Christians- Day 5 and 6)

2030 AD Millennium starts – Day 7, day of rest from Satan

3030 AD after this the final battle and the new earth is created. – Day 8, eternity starts

Satan knew the earth is only 6000 years old. In a court case in heaven in 2012 he said to The Father “6000 years are up now give me the earth”. So, the rapture was to have been before 2012. But The Father looked at Jesus who said it could not occur because prophecy had not been fulfilled about the last great harvest of souls.

The Prophetic clock started again in May 1948 when Israel became a nation again.

A generation was not to pass (70 years) before the tribulation started. The 70 years ended May 2019. adding 7 years for the tribulation and we have that it must end around May 2026

Jerusalem became a prophetic city again when it was reunited in June 1967. The first Jubilee ended in June 2018 so the tribulation according to this would end June 2026.

Interesting how close both months are.

Antichrist rules for 3 ½ years so he is removed by June 2030.

I believe the second dates are the ones to consider as they start when prophecy restarts when Jerusalem is reunited as one..

Why is there a tribulation?

The earth did not give Israel its land back in 2018 so God is punishing it..

The times are interesting
